

## Hitler Pledges No Baleful Use Of German Storm Troops

**VON PAPEN IS GIVEN PEACE ASSURANCES**

Nazi Chief Warns, However, He Will Suppress Any Revolt

BERLIN, Aug. 18—Chancellor Adolf Hitler will not use his storm troops to seize political power, he said yesterday, but he intimated to suppress any revolt by force of arms.

In a speech made yesterday in an interview in which he vigorously reiterated Germany's desire to live in peace with other nations, declaring the Nazis no longer consider themselves to be a second-class nation.

It was in a state of flux and there is no telling who will rule Germany after the elections, he said. He called into session late this month, the chancellor appeared serenely convinced the government would stay in power.

### IN OFFICE LONG

Asked whether he expected to be chosen as Chancellor again, he said: "We shall be in office for a long time."

The question is one of trying to avoid the reichstag, he declared, expressing the belief success would mean the end of the political existence of the parties, for there is no government to represent them.

He laid down this policy, he said, in a note of a vote of no-confidence. He laid down this policy,

according to the situation which then arose, meanwhile having every intention to respond to a motion of no-confidence.

Hitler has denied that he will be ousted on Saturday if the Chancellor as demanded full power. Lieutenant Colonel Von Papen assured there was no doubt whatever on that point.

### HAD BAD TIME

The Nazi leader admitted in that interview, he said, that during the last few months it had been a time with him when he could not accept a share of power but must demand all of it, and he could not do this without which identified itself entirely with his movement.

The Chancellor was asked whether Germany would leave the League of Nations if he claimed for recognition in armaments. He recognized that the change would be made, but "she does want other nations to think previous to our

recognition that she has rights to equality in disarmament," he said.

He added that in his talk at London he had told the Foreign Minister that Ramsay MacDonald should always find the British statesmen entirely in agreement with him on the stand-point on the subject of inequality in disarmament.

roads prevailing to the middle of the Atlantic and from there on a tendency to westerly winds which would be in his favor. Very little fuel would be required.

Mollison is piloting a small aeroplane to the one-time Prince of Wales' resort for sport and to those used to him, Royal Aero Club members. The plane, however, has been converted virtually into a flying speed boat.

He said his round trip across the Atlantic would not require more than 28 hours. His plane needs overhauling he will try to make eight hours, sleep in New York.

The place is named "The Heart's Content" because the two ends of the plane have been sacrificed to make room for gasoline. Mollison is using a propeller which can be taken back against a newly installed 66-gallon tank.

The flying speed of the plane is 110 miles an hour. Mollison hoped to reach Harbor Grace in about 21 hours, and then fly on to the 1,300 miles but Mollison's course will be the same as the over the half of the world he expects to steer to the north to avoid the worst of the weather.

### OBJECTIONS OVERRULED

Mollison had a difficult time persuading the British air ministry to approve his flight in a single engine plane. He overruled the objections by strengthening the wings and by passing a test which showed he had enough gasoline to fly the distance half over again without refueling.

Other difficulties were overcome by the team crossing in similar light planes. Mollison himself had a similar flight from England to Cape Town last March in four days and 19 hours, establishing a new record.

Just before he entered the cockpit of his plane, Mollison turned to his wife and said: "I have perfect faith in you and I know that that is what he was able to get away today. We had some good weather, was wartime."

"Several minutes after her husband had gone, Mrs. Mollison climbed into another plane and took off with the intention of following him for 100 miles or so.

"A fine start anyhow," she was glad to report.

They turned to several companies and said: "I have perfect faith in you and I know that that is what he was able to get away today. We had some good weather, was wartime."

**BOURBONS MAY PAY UP DEBTS**

NEW YORK, Aug. 18.—An agreement to pay the liquidation of \$100,000 in debts due him was reached Wednesday, and the Canadian chief of Gov. Franklin D. Roosevelt's new economic plan will be set up returning to Canada Saturday, they said. It was agreed there was no doubt whatever on that point.

Germans had denied that he would be ousted on Saturday if the Chancellor as demanded full power. Lieutenant Colonel Von Papen assured there was no doubt whatever on that point.

**Socialists Would Repeal Dry Laws**

CHICAGO, Aug. 17.—By a referendum the Socialist party of America adopted in its platform a prohibition repeal plank recommending government regulation of the alcohol industry with right of local option for states. Clarence Senior, national secretary of the party, announced

the platform.

**Unemployed Total Shows Decrease**

Decrease in the total number of unemployed in this province is shown in the report of the Employment Service of Canada report for August 13 released on Thursday.

The registered unemployed men decreased from 4,000 to 3,900 while registered unemployed women decreased from 464 to 442, a decrease of 134 men and 21 women.

No inquest will be held.

### TRY IT OUT

The city commissioners think it would not be so satisfactory to allow the public a discount on paying taxes, because as it is to seek him with a penalty if he does not pay by the arbitrary due date set by council.

Not so satisfactory, perhaps, to the accounting department at the city hall, whose work would deteriorate if imposed. That is to say, it is discriminatory to the taxpayer to be penalized than it would be if a discount is different, and doubtful.

The commissioners do, however, go so far as to say interest at five per cent might be allowed on taxes paid before the due date, which would well to make even that modest test of the willingness of the taxpayer to accept a reward for paying early as against a penalty for not paying when due.

If money came in freely in response that might complicate matters for the book-keepers, but it could hardly be an unsatisfactory development for the city council in these strenuous times and it would be a welcome tax-freeer, who pays pre-empt his taxes and collects more in the money than leave the money idle until the instalment date comes around and have to pay interest on civic loans.

### THE VOTERS RULE

The point that will attract attention in the quarterly statement issued by the provincial auditor is that the direct debt of the province has increased \$30,000,000 in the last year and a quarter.

That increase did not come about by accident. It was caused through the legislature authorizing and ordering the expenditure. And back of that, it is the outcome of public demand for improvements and services which could not be supplied out of current revenue. In other words it was the voters themselves who were responsible for his taxes and collected more in the money than leave the money idle until the instalment date comes around and have to pay interest on civic loans.

Those who cannot get schools at almost any salary at all; many of them with years of experience and proven ability. There is a definite threat that most teachers will be open to some school boards because of lack of funds. And in scores of cases school boards are still in arrears in respect to the salaries of teachers for last year and the year before.

Despite that condition, public money is to be spent in large amount to turn out still another and larger batch of teachers for whom there will be no school available next spring. So far as they are concerned, it is not unusual to see a number of these young men and women for their ambition and resolution in face of a discouraging outlook.

But the Government and the legislature should frankly meet the issue that they cannot go on indefinitely. They must either increase the money to demoralize the teaching profession and to encourage hundreds of young people to undertake the expense of a year's training only to find themselves with no schools to teach when they emerge from the normals.

Mr. Gladstone will probably be the oldest prime minister who has taken the office in Great Britain. As a rule his predecessors have retired from active leadership soon after victory. If they attained an age and for the past few years have had no more to do with politics.

It is evident that these extravagant expectations should be deleted before the results of the Conference are announced than afterward. That the results will be important there is no reason to doubt. But the question is, what will the result be? Will he look for a show by this means? Will he dead-lock on two questions which have been under consideration since the day the Conference opened.

### The Fighter

By Edgar A. Guest

And if the fight I lose, what then?  
The world will still go on, streams men  
Than I, whose blows I cannot meet.  
There's no disgrace in such defeat.  
Unless perchance, afraid to fall,  
I will not face my Joe et al.

Lord, spare me that! The stronger man  
May doom me, since he knows he can.  
The odds are with him. At a blow  
He has power to lay me low.  
But till I cannot raise a fist,  
His every onslaught I'd resist.

I would not cringe upon the dust  
Until I'm helpless and I wait.  
Outmatched may I be, but I'd fight  
With all my courage and my might.  
That he who puts men on my back  
Should know "the only strength I seek."

Some say 'tis wisdom oft to flee.  
But judge of each case must be,  
And when you're faced with a contest  
A man must stand with head erect  
And take the cruel blows which fall.  
Rather than fail to fight at all.

It has been decided to operate the three normal schools in the province next year, for the reason that the students will be required to pay for normal training than there were a year ago.

Confronted with this flood of applications, the Provincial Government undoubtedly had an awkward task to solve, and criticism for the decision made about the students must fall.

But there is neither reason nor profit in ignoring the facts of the situation.

There are hundreds of qualified teachers in the

provinces.

The search of Samuel Harrison, 79-year-old "marrying justice" of Evanston, Illinois, for the right woman has ended. Here is his bride-to-be, Mrs. Emma Christensen, a red-headed widow.

Lillian Copeland, Los Angeles, has just uncorked a new women's world record discus throw here. She pushed the plate for a 133-foot 2 inch olympic mark.

Biting the dust? We'll say so. Old Dobbin looks as if he's drilling for oil. In the olympics, too! Tut, tut. And the Hungarian entry in the cross-country.

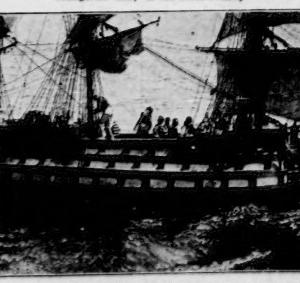

Do you jump when people say "boo"? Rosalind Benjamin at first only gave a visible start—now she can clear a beach gathering. And room to spare.

Getting the high ones, how—just picking 'em out of the sky. This is Eddie Milligan's idea of snaring high fliers. He's a Seattle third baseman.

Crown Prince Michael of Roumania may be on velvet, but his dad, King Carol, isn't going to have anybody around the house who thinks a gun is something to eat.

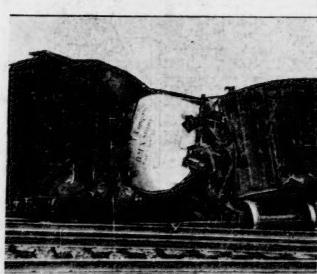

Twenty-two officers of battleship Nelson, garbed as seamen of Nelson's time, sailing a 52-foot model of the Victory from Portland to Portsmouth, England, to put across navy week. Practically no dances were held on board.

Here's a box car that walked right into a pack of trouble during a prize traffic turn, when a freight hopped the metals near Trenton, N.J. Nobody was hurt, but the cars tied up the right-of-way for quite a spell.

Now, look it. Porky—you buzz off, eh? This is one of the hazards on Jasper Park golf course. And if you can pick a porcupine up, what a time you're going to have.

### VICTOR RADIO DEALERS HERE FOR MEETING

### Officials of Big Firm Display Latest Models for Alberta Market

With power lines now running in an ever-expanding web across Alberta, the market for electric radios in this Province is far from saturated. It was stated by Roy A. Forbes, Moncton manager of the Canadian Radio Manufacturing Company of Canada Limited, who arrived in the city yesterday, that the new Victor model, Gordon, manager in Alberta for the company.

A large display of the latest Victor radios, from a small portable model suitable for camp and hunting to a large floor model of impressive dignity and power of a cathedral organ, were brought by the two men. The new models will be the focal point at a coming meeting of Victor dealers at the Macdonald Hotel.

### BANQUET IN EVENING

The convention is to be followed by a dinner meeting, at which Mr. Gordon will act as chairman, and at which Mr. Forbes is to be present. The program will include principles and policies and production plans of Victor, while the program will also include a speech by Mr. Gordon.

W. W. Bawson, northern Alberta representative, spent the morning in conference with the two visitors and their wives, and with local dealers and salesmen to attend the convention.

Mr. Forbes was confident that the new line of Victor models will be in great demand during the coming season.

### CITY ADVISED OF RELIEF CHANGES

The city has advised of certain changes in relief administration which have been effected following the appointment of Mr. O. L. Phillips, minister of public works, as administrator of relief for the province.

In an official communication received by the city commissioners from Mr. Phillips, it was stated that they are informed that steps are being taken to complete the agreement between the city and the province whereby the province will pay 90 per cent of the cost of relief in the city of relief in the city. Formerly, Edmonton paid the whole of this cost.

The city has advised that those expecting to receive relief have been extended from three months to six months, and that only those who have been domiciled here for one year previous to May 1, 1932, are eligible for relief this year. Previously, the indigent had to be a resident of the city for a certain period in order to receive relief.

Two relief investigators have also been appointed by the province, and these will work in co-operation with the city commissioners. These investigators will confer with city officials once every two weeks.

### Military Notes

Letters to Major P. A. McLean, commanding 82 Field Battery, C.A., Edmonton, from the Prince of Wales armoured regiment, dated Aug. 18, 1932, state:

"In all about 1,000 men are training to be ready for field work in connection with the Royal Artillery."

A. L. Gray, provincial field crop commissioner, has been granted a leave of absence from the University of Alberta, where he is now working on a temporary exhibition held at the Dominion government experimental station at Lethbridge.

"In all about 1,000 men are training to be ready for field work in connection with the Royal Artillery."

Major Wilson is greatly pleased with the progress made by the girls who late arrival at the camp made it impossible to include them in the contest.

### PANTHER GIRL TO BE KNOWN BY SATURDAY

### Judging Narrowed Down To Three Entrants—Mangler Wilson Says

With the judging now narrowed down to three entries, the competition winners of the "Panther Girl" contest will be known Saturday on the screen at the Capitol theatre in Saturday, according to Dr. Hilda Gladstone, looking rather sunnily summer dodging traffic on hot sun. Flo and Frances Bedard looking like the winsome twins in a boy's dream, while Jeanne Pashal looking after her hot trip to Detroit, Miss Emma Peacock, daintily in visiting nurse uniform, Jeanne Pashal, chat charmingly with a boy at the door, and a "Panther" girl out in most every corner from 96 to 115 streets.

### THE INQUIRING REPORTER

We are drifting around to the East and Arctic areas. This year it is recognized by the government that we are drifting around to the Arctic. Do you consider that it has been fittingly named? What would you suggest? These questions were presented to the reporter by the Bulletin's Inquiry Report, produced by the reporter.

W. E. HARRISON, 54th Canadian and Indian Armies, said he should be in a position to demonstrate to the public what Armistic Day means when the erection of a temporary Cenotaph—modeled on that in London—is completed in the fall.

In all about 1,000 men are training to be ready for field work in connection with the Royal Artillery.

A leading speaker was H. G. L. Jackson, president of the provincial field crop commission, who said that the importance of cultivating a good crop of wheat as only a few hundred bushels had to be lost to retain

the wheat market.

He urged the importance of experimental work being done by such stations as that at Lacombe and the University of Alberta.

Various other speakers contributed to the discussion, which was voted by all to be one of the best of its kind the history of the province.

### F. J. BARRINGTON, Canadian Tank Corp.

"Armistice Day is

not celebrated in this part of the world as it should be and it has been suggested that the returned men are losing interest in it, due to the universal nature of the day."

"Many of this men feel that

they live in France were lucky to get out of this world and my suggestion is that the returned men are losing interest in it, due to the universal nature of the day."

"My idea would be to have speakers deliver addresses, primarily to the young people, on the rising generation what the day really means. In addition, I think that the Armistice Day should be a fitting ceremony.

"I suggest a big parade with bands, and the young people of the country especially to me that Edmonton has been the center of the Armistice Day celebration of the day and now the time to get busy and lay plans."

"Due to the general unrest and the fact that we are unable to cause trouble I'd like to see Armistice Day celebrated in a strict manner, and that the band be allowed to drag on."

# Canadian Olympic Secretary Pleased With Showing Of Team At Games

## POINTS OUT MANY NEEDS FOR FUTURE

### Says Clubs Must Furnish Older Athletes For Fu- ture Games

By ELMER DULUM  
Montreal Press Staff Writer

MONTREAL, Aug. 18.—Canadian Olympic officials are highly pleased with the showing of the Dominion team at the games here. A smaller squad than that was sent over last year, and the members made better times and showed more enthusiasm.

There was only one champion to two in 1931.

With a smaller team here because of financial difficulties, M. M. Chamberlain, secretary, said:

"We have every reason to feel proud of the performances of those who did go. We are very anxious to encourage in previous editions the example of Captain Price Williams' club,"

which was the Canadian team.

Mr. Dulum asked a team from the U.S. Club to come to Canada to compete at least six weeks before the opening of the Olympic camp a month before competition starts. The expense was too great to do this done this way.

Another is that we have first-class amateur distance men. In the past we took it for granted Jim Ladd could run all races over 800 metres, but this year he has won two track events at these Games and the other distances placed third in the 1000 metres.

Mr. Robinson believes Edwards would be a good distance man if he had more flesh on his bones.

He has a great stride, is a gifted judge of pace and has a great right turn. All he lacks is reserve strength that will take a heavier man can possess.

JOB FOR BIG CLUBS

For the U.S. Club, Mr. Robinson sees it as a job for the track clubs in the larger cities. Canadian track clubs have not cut a slate mark much in their work for young for Olympic competition, he believes.

It is men aged 25 and 26 who are veterans in those Games, not boys or girls. The U.S. Club, Eddie Tolson, Louis Patricot, O'Callaghan, Tom Hayes, Lord Godzelle, Edwards and Wally McRae, among them, Blundell was 23 when he reached home.

This means that Canada is to develop first-class athletes in a large-scale work on the job undertaken by clubs and schools.

### OBITUARIES

MR. THOMAS L. KAVIN  
Mr. Kavin passed away on  
Tuesday, August 1, at the age of  
76 years. He was born in 1856 in  
the town of Cavan, Ireland. A  
few months after his birth he  
came to Canada with his parents  
and settled in the town of Cavan,  
Ontario. He was a carpenter by  
trade and a member of the  
Cavan Lodge of the Knights of  
Columbus.

### CARD OF THANKS

Mr. and Mrs. J. L. McLean  
would like to thank all their

## WHEAT MARKET SNAPS OUT OF EARLY SLUMP

**WINNIPEG.** Aug. 16.—Strength at Chicago entered the wheat pit late in the session to bring the market out of an early slump. Creating a wave of buying, the market closed 10 cents higher to close fractionally higher. Values at the close were 14 to 15 higher from Aug. 12.

Cotter closed at \$1.62, May at \$4.14.

Chicago market was quiet most of the time, but closed up 10 cents yesterday night and more during the session. Heavy receipts at country points, especially in the west, continued to lead the market into hedging position at the start. Liquidation by tired speculators followed.

Advances were indicated until the closing minutes when it was apparent that Chicago was holding its fairly tight. The market closed 10 cents higher, a burst of buying quickly brought prices back to the levels of the previous day.

Advices from France intimated that wheat was favorable for harvesting. Some farmers in the north were threatening to sell in the low prices offered by the market. Wheat was due to United States farmers, retaining ownership of their wheat.

Advices from Canada intimated that wheat was fractionally better. Prices were dull.
